

THANK YOU

Local 30's 'Shoes for Kids' Shoe Drive

You Made a Difference, You Got Involved!

The response to the Local 30 Shoe Drive has been unbelievable. Thanks to the generosity of so many we have made our goal of new shoes, and socks for each student at the Perkins School. Given the extraordinary need at Perkins our contribution will make a big difference for all those children. Congratulations and thanks to all of you who provided support for this drive.

Our original plan was to distribute the shoes by the end of September but due to scheduling conflicts at the school, and now a conflicting charitable event conducted for the school by another organization we have decided to push back the distribution of the shoes and socks until January. Given the need, the Winter weather that is coming, and the way kid's feet grow at these ages we will be helping even more right after the Holidays.

Given the circumstances which are beyond our control I certainly hope everyone understands the change in plans. I invite anyone with any questions about this situation to call me directly at Local 30. We will announce the new distribution date as soon as one is set.

Thank you for your support.

In unity,

Walter Allen Jr.
Executive Director/ CFO
